Millionaire

Formula is 2 raised to the Power of the Period minus 1 or $2^P - 1$

Where Period is the time it takes to double your effort.

The process is simple. Get one Customer per month yourself and have 12 in a year.

Tell your customers to tell one a month and you have 78 Customers in a year.

Enlist Customers as Agents to Teach everyone to Teach everyone to get one in a year and you have over 4000 in a year.

Imagine teaching stores to teach stores about our technology and YOU get paid on all the sales.
